Owner’s rulings applied: Amaravati Mahachaitya railing — Yajnasri Satakarni’s reign, Acharya Nagarjuna (NextGen); Motupalli — east-coast port that rose under the Kakatiyas (Rocket Sheet wrong); western Satavahana port — (2) Sopara; Bellary/Myakadoni theory — **V.S. Sukthankar** (3.47; R.G. Bhandarkar is the trap).

Lesson for the full run: the Bellary case showed that a printed or “official” key must never be followed blindly. In the full run every PYQ is answered from the sources first, and any disagreement goes to other Drive sources, then the web.

Blueprint and angles (Phase 3A)

Blueprint (Phase 3A) – AP History: the Satavahanas (APPSC Complete book 1, rows 46-49)

Data: 247 validated PYQs (keys-46-49.jsonl + keys-47-48.jsonl, stems/exams from pyqs.json) and 411 app MCQs (all-mcqs.json, 658 in all). All counts below were computed with Python (`classify.py`/`stats.py`, scratch). Angles were tagged by stem pattern plus a few hand fixes. Each PYQ is mapped to exactly one sub-section of the rebuilt notes (Phase 3C mapping: appendix A).

Founder, Firsts and Independence from the Mauryas

The firsts

- **First historical ruling dynasty of the Deccan:** the **Satavahanas** (c. 200 BC – 200 AD), the oldest Deccan dynasty (Sainik Welfare 2012; UP 2001).
  - Distractors: Chalukyas, Rashtrakutas, Cholas, Pallavas – all centuries later.
- **First dynasty to rule Andhra:** the **Satavahanas** (G1 2010 re-exam; G1 PYQ); not the Cholas, Eastern Chalukyas or Rashtrakutas.
- **Puranic name:** the Puranas call them **Andhras** or **Andhrabhrityas** ("servants of the Andhras", or Andhras who had been feudatories); the dynasty identified with the Puranic Andhras = Satavahanas.
- **Caste: Brahmins**; the Nasik inscription calls Gautamiputra **"Ekabrahmana"** (APPSC PYQ).
- ⚠ **Trap:** they claimed **Brahmana** status, not Buddhist descent – a statement "Satavahanas claimed Buddhist descent" is false. #### Founder – Simuka
- **Founder: Simuka** = Simukha = Srimukha = Shimukha (Puranic "Sinthaka"); asked 13 times (G2 2000, 2008; Geologist 2007; SI 2011; UPPSC 2008).
- **Founder of the administration too:** Simuka (G2 2008); he united several principalities into one kingdom.
- **Rise:** killed the **Kanva** king **Susarma** and ended the Kanvas; ruled from **Pratishthana**; said to have ruled 23 years.
- **Progenitor:** per the **Puranas = Srimukha**; per inscriptions, coins and Kathasaritsagara = **Satavahana** (Srimukha's father) – exams answer Simuka.
- **Successors:** brother **Kanha (Krishna)**, 2nd king; then son **Satakarni I**, 3rd king. Purnotsanga (Vedasri) and Kanha are distractors for "founder". #### Independence and span
- **Freedom from the Mauryas:** the Satavahanas began as Mauryan feudatories; the Andhras won freedom from Mauryan rule under them (APPSC PYQ).
- **Rule of ~450 years:** after Mauryan decline they ruled the Deccan for **456 years** (Matsya Purana) – "about 450 years" (Social & Cultural History of AP).
- **Ashoka's 13th Rock Edict:** lists the Andhras among his vassal peoples.
- **Sequence in Magadha:** Mauryas → Sungas → Kanvas → Satavahanas.
- **Successor states:** Ikshvakus (Andhra), Abhiras (Maharashtra), Chutus (Karnataka), Pallavas (Tamil Nadu), Vakatakas (Vidarbha). > Statement angle: "Founded by Simuka" ✓; "claimed Buddhist descent" ✗; "long conflict with the Sakas over the premier (western) ports" ✓ (Periplus) → answer "1 and 3". ~~ Sources: NextGen Satavahanas p.5-7, p.12; Rocket AP History p.3, p.22, p.46, p.56; app notes 1:46 (sub 0, 3)

- **Most-asked fact:** the inscription describing Gautamiputra's achievements = **Nasik** (G1 1987; G2 2008; Welfare Officers; APPSC PYQ ×3).
- ⚠ **Trap:** issued by **Gautami Balasri in Pulumavi's reign**, not by Gautamiputra and not in his reign.
- ⚠ **Trap:** Naneghat = Naganika (Satakarni I); Kodavali = Chanda Satakarni; Hathigumpha = Kharavela; Junnar, Pitalkhora = distractors.

- **Lost lands regained:** Malwa, Saurashtra, Konkan, Nasik regained from Nahapana in Gautamiputra's reign (G2 2000).
- **Enemy faced:** the **Sakas** (not Hunas, Greeks or Parthians); praised as "destroyer of **Sakas, Yavanas and Pahlavas**".

- ⚠ **Trap:** Vidisha and Ujjain are Akara and Avanti, not Anupa; Podana is a distractor. #### Social claims
- **Protector of the varna system: Varnasankarya-nirodhaka** – stopped the mixing of the four varnas (Chhattisgarh PSC 2013); not Pushyamitra, Kharavela or Vasudeva.
- **Brahmanical image:** Ekabrahmana, "crusher of Kshatriya pride" (Kshatriya-darpa-mana-mardana), Agama-nilaya.

- ⚠ **Sources differ:** NextGen says he “started the Salivahana era (AD 78)”.
    - Settled: 78 CE begins the **Shaka era**, tied to Chashtana’s accession; the “Salivahana era” is a later legend (https://en.wikipedia.org/wiki/Shaka_era).
- **Dates:** traditionally c. 106-130 CE (23rd king, ruled 34 years per NextGen); some scholars now prefer c. 60-85 CE.
- **Ayama:** minister of the Kshaharata **Nahapana** – linked with the **Junnar** inscription (a Kshaharata record, not Satavahana); Ushavadatta was Nahapana’s son-in-law. ~~ Sources: NextGen Satavahanas p.10, p.25; Rocket AP History p.6, p.8; app notes 1:46 (sub 4, 5); https://en.wikipedia.org/wiki/Gautamiputra_Satakarni; https://en.wikipedia.org/wiki/Shaka_era

Gautami Balasri	Mother of Gautamiputra; issued the **Nasik Prasasti**; gave a Nasik cave vihara to Bhadrayaniya monks
Lilavati	Sri Lankan princess, queen of **Hala** – distractor

- **Regent queen: Devi Naganika** ruled as guardian during her son’s minority (G2 2019; APPSC PYQ ×2).
- **Whose queen:** Naganika = queen of **Satakarni I** (APSLPRB 2023; APPSC PYQ) – not Srimukha, Satakarni II or Gautamiputra.
- **Her father:** Maharathi **Tranakayiro** – the marriage allied the Satavahanas with the Maharathis (APPSC PYQ ×2).
- ⚠ **Trap:** regent = Naganika, not Gautami Balasri; Devi Mathari, Rudradamanika, Chashtana’s or Nahapana’s daughter are distractors. #### Metronymics
- **What:** kings put their **mother’s name** before their own – Gautamiputra (son of Gautami), Vasishthiputra.
- **Began with: Gautamiputra Satakarni** (G2 2008 key; asked 6 times) – not Simuka, Hala or Vasishthiputra Pulumavi.
- **Precisely:** the prefix is the **mother’s gotra** name (Gotami < Gautama, Vasithi < Vasishtha) (JA Panchayat Raj 2012).
- **Dynasty known by metronymics:** the **Satavahanas** (CDS 2020) – not the Mallas, Videhas or Yaudheyas.
- **Meaning:** usually explained by **polygamy**; shows respect for mothers, but succession stayed **patriarchal**. > Statement angle: “Gautamiputra took pride in calling himself son of Gautami” ✓ (Sachivalayam). ~~ Sources: NextGen Satavahanas p.7, p.10, p.15; Rocket AP History p.53; app notes 1:46 (sub 7)

- **Navanagara (new city):** built by **Pulomavi II**, title Navanagaraswami (G2 2000 backlog).

- **Last king (Puranas): Pulomavi III**, the 30th (G2 2011 ×2); Sivasri, Vijayasri, Chandrasri are distractors.

- **Fall:** the Ikshvaku **Santamula (Srisantamula)** overthrew Pulomavi III (c. AD 225-230) and took Dharanikota and Nagarjunakonda; Pulomavi III spent his last days at **Myakadoni** (Bellary). > A-R angle: “Dynasty ended in the mid-3rd century CE” ✓; “break-up paved the way for the Ikshvakus” ✓ – but R is a result, not the cause → both true, R not the explanation.
- **Bodhisri’s king:** Upasika **Bodhisri** made her gifts at Nagarjunakonda in the reign of the Ikshvaku **Virapurushadatta** – the golden age of Buddhism there.
- **Recovery from the Western Kshatrapas: Yajnasri Satakarni** won back the lost territory late in the dynasty’s history.

Sources – Puranas, Literature, Foreign Accounts

Puranas

- **Main Purana:** the **Matsya Purana** – genealogy and reign of each king; Satavahana political history rests on it (Welfare Officers).
- **Matsya figures: 30 kings, 456 years** (271 BC – 174 AD); kings 1-23 = early, 24-30 = later Satavahanas.
- **Compiled under: Yajnasri Satakarni** (APPSC PYQ).
- **Vayu / Vishnu:** 17 kings, 272 years – not treated as standard.
- ⚠ **Trap:** the **Vishnudharmottara Purana** (Chitrasutra) is the "sourcebook of Indian painting", not a Satavahana source (Animal Husbandry GS). #### Literature
- **Early Satavahana history:** told in **Kathasaritsagara, Pratishthanapura-kalpa, Dvatrimsatputtalika**.
- ⚠ **Trap:** the **Gathasaptasati** does **not** narrate early Satavahana history (G2 2017; APPSC PYQ). #### Kharavela
- **Contemporary:** Kharavela of Kalinga was the contemporary of **Satakarni I** (G2-B 1989); the Hathigumpha inscription and the Chulakalinga Jataka record the contact.
- ⚠ **Sources differ:** NextGen says Kharavela "attacked and defeated" Satakarni I.
    - Settled: Hathigumpha line 4 says he sent an army west "disregarding Satakarni", to the Kanhabenna; no defeat is recorded (https://en.wikipedia.org/wiki/Hathigumpha_inscription). #### Foreign accounts | Writer | Work / fact | |—|—| | Megasthenes | Indica; first foreign source on the Andhras | | Pliny | Natural History (Latin); Roman gold drained to India | | Periplus (anonymous Greek) | Saka–Satavahana conflict; Koddura the only east-coast port; Arikamedu | | Ptolemy | Geography; Pulumavi vs Chashtana; Maisolia a great market |

- **Title: Kavivatsala**; honoured poets **Kumarila** and **Sripalita**; married the Sri Lankan princess **Lilavati**.
- **Golden age of Prakrit:** Hala's reign. ⚠ **Trap:** NextGen p.23 prints "golden age of Sanskrit" – its own p.9 says Prakrit; Sanskrit was Kuntala Satakarni's cause. ~~ Sources: NextGen Satavahanas p.1-2, p.9, p.23; Rocket AP History p.9, p.52; app notes 1:47 (sub 10)

Guilds (Srenis) and Guild Banking

- **Shreni:** guild of traders or artisans of one craft; fixed work rules, **quality and prices**, controlled its members' conduct; head = **Shreshthi (Sethi / Setti)**.
- ⚠ **Trap:** guilds existed in **north and south** India – "prevalent only in northern India" is the untrue statement (State PSC).
- **Number: 18** guilds in Satavahana records; they later hardened into castes. | Guild | Members | |—|—| | **Kolika** | **Weavers** (strongest guild; Padmashalis) (G2 2019 ×2) | | **Padhika** (Vadhaka) | **Carpenters** (G2 2012; APPSC PYQ) | | **Kularika** | **Potters** (JA Panchayat Raj 2012) | | **Gandhika** | **Perfumers** – noted donors to Buddhist causes (JA NTR UHS) | | Tilapishaka | Oil pressers | | Udayantrika | Makers / operators of water machines | | Halika | Farmers | | Malakara | Florists | | Kasakara / Kamara / Suvarnakara | Brass workers / blacksmiths / goldsmiths | | Chammakara | Leather workers |

- **Later shift:** Salankayanas – Sanskrit replaced Prakrit (5 of 8 inscriptions); Eastern Chalukyas of Vengi – Telugu.
- **Sanskrit grew alongside: Kuntala Satakarni** made Sanskrit the royal language; Mahayana texts were written in Sanskrit. > A-R angle (UP RO 2017): “Sanskrit developed along with Prakrit and folk languages” ✓ because “kings promoted Sanskrit and folk languages in literature” ✓ – R explains A. > Statement angle (UPPCS 2021): “Satavahanas were nurturers of Prakrit” ✓; “public aspect of the arts got more encouragement” ✓ → both.

- **Western port: Sopara** – in the Satavahanas' Konkan heartland (G2-A 1984, owner's key).
- ⚠ **Trap:** Broach was often in Western Kshatrapa hands — exams mark Sopara as the Satavahana western port; Broach came under the Satavahanas only after Nahapana's defeat, and Kalyan was the main port before it.
- ⚠ **Sources differ:** NextGen puts Kalyan in Karnataka — settled: Kalyan is in Thane district, **Maharashtra**; the Periplus records it (https://en.wikipedia.org/wiki/Kalyan).
- **East-coast ports:** Ghantasala and Masulipatnam (Welfare Officers: "2 and 4"); Barygaza and Kalyan are western; Koddura is eastern too.

- ⚠ **Trap:** Motupalli is an east-coast port that rose under the Kakatiyas — not a western Satavahana port (Rocket Sheets misprint); "port not used in Satavahana times" = **Motupalli** (APPSC PYQ). Today in Bapatla district.
- **Koddura:** the Periplus' only east-coast port of the Satavahanas. #### Evidence of sea trade
- **All three testify:** the **Periplus**, **Roman coins** found in Andhra-Telangana, and the **ship coins** of Pulomavi and Yajnasri (Welfare Officers Mains).
- **Roman objects found most in India: coins** (IAS 1999) – Bhattiprolu, Nagarjunakonda, Attirala, Salihundam, Vijayawada, Vinukonda, Nellore.

Feudatories and Military Camps

- **Not strongly centralised:** many vassal janapadas run by local kings, supervised by **Mahabhojas** and **Maharathas**. > A-R angle (Welfare Officers): "Semi-autonomous Bhojas and Maharathis made the polity decentralised" ✓; "the centre discouraged local leaders and ruled all areas directly" ✗. | Feudatory | Feature | |—|—| | Maharathas | Hereditary; collected (and could remit) taxes | | Mahabhojas | Hereditary; inscriptions omit the emperor → near-independent | | Mahasenapatis / Mahasenadhipatis, Mahatalavaras | Commanders of border provinces against the Sakas |

    - Options printed “Gautamiputra Yagnasri” = Yajnasri Satakarni. When the question asks for the king, do not mark Nagarjuna.
- ⚠ **Trap:** Vasishthiputra Satakarni (earlier vedika sculptures), Vasishthiputra Pulomavi, Gautamiputra and Srimukha are distractors; final enlargement under the Ikshvakus.
- **Origin:** Ashokan age – **Mahadeva Bhikshu**, first Buddhist teacher in Andhra, enshrined the Buddha’s relics; Naga king **Nagashoka** helped build it at Dharanikota. #### Size
- **Biggest stupa in Andhra Pradesh:** Amaravati (G2 2019 prelims; G2 PYQ) and the **largest in South India** (Welfare Officers 2017); Bhattiprolu is the **oldest**.
- **Larger and more artistic:** than Sanchi and Bharhut (Welfare Officers 2017).
- ⚠ **Sources differ:** NextGen calls Sanchi “the largest stupa in India”.
    - Settled: Amaravati’s railing was ~59 m across vs Sanchi’s 36.6 m dome, so Amaravati was larger (https://en.wikipedia.org/wiki/Amaravati_Stupa; https://en.wikipedia.org/wiki/Sanchi). #### Ayaka platform
- **Platform with ayaka (Aryaka) pillars:** hallmark of the **Amaravati** stupa (UPPCS 2022); unique to Andhra stupas.
- **Layout:** 4 ayaka platforms at the cardinal points × 5 pillars = five events of the Buddha’s life. | Event | Symbol | |—|—| | Birth | Lotus | | Great Departure | Horse | | Enlightenment | Bodhi (peepal) tree | | First sermon | Wheel | | Mahaparinirvana | Stupa | #### Discovery and the Amaravati school

- **Amaravati and UNESCO:** the app key puts the **Amaravati Buddhist Stupa** on India’s UNESCO tentative list. ~~ Sources: NextGen Satavahanas p.10, p.21-22, p.29-30; Rocket AP History p.25, p.34; app notes 1:48 (sub 1, 2, 10); https://en.wikipedia.org/wiki/Amaravati_Stupa
